- Familiar with Agile and Scrum methodologies

Mobile Development

- **Learning:** Swift (iOS)

Soft Skills

- Problem-solving mindset
- Strong collaboration and teamwork abilities
- Adaptability and eagerness to learn new technologies
- Good communication skills in both English and French

Projects

Billing Automation Project - External Client Project (ECP)

Duration: September 2024 - Winter 2025

- Collaborated with a consulting firm to automate their billing, client, and project management processes.
- Designed and implemented a system using n-tier architecture with Role-Based Access Control (RBAC) and JWT for secure authentication and authorization.
- Key functionalities include client registration, project tracking, time tracking, automated invoice generation, and reporting.
- The system improved efficiency by automating tasks previously handled manually through spreadsheets, reducing errors and enhancing scalability.

Pet Clinic Scrum Project

Duration: September 9, 2024 – October 21, 2024

- Worked on expanding the Spring-based Pet Clinic web application as part of a SCRUM team.
- Utilized React + TypeScript for the frontend and a microservices-based backend.
- Developed features related to authentication, authorization, data synchronization, and localization.
- Implemented unit and integration tests using JUnit5, Mockito, and Hamcrest.
- Managed project tasks using Jira, version control with Git, and containerized microservices with Docker/Docker-compose.
- Followed Agile and Scrum methodologies

Language skills

- French: Fluent
- English: Fluent
- Spanish: Fluent
